Technical specifications for **medium rectangle** for our newsletters

Medium rectangle size

The medium rectangle format for our newsletters is:
300 x 250 pixels

Clicking on your advertisement can result only in activating your URL link.

Characteristics

In order to be viewable without installing additional software on the customer's computer, the file format should be **gif (animated or otherwise) or jpeg**.

The file size should not exceed 50 Ko.

NB: The first image of your animation should be one that can be clearly understood, as certain messaging clients (including Outlook) do not support animated gifs, and show only the first page of the animation.

The redirection link to your site or specific page must contain **http://** or **https://**.

It must be supplied in clear text format (**.txt** format) and will be checked before going live.

Full responsibility for the content of your advertising is borne by the entity that has supplied it to us. You must own the copyright of your advertising content. We reserve the right to refuse to display any content that we reasonably deem to be in breach of the legislation in force.
